

DOUBLEWIDE WOOD AND STEEL FRAME

At Lark we realize the specific requirement for storage can vary from customer to customer. For this reason, we build portable buildings to meet virtually any size storage demand. From the smallest to the largest, Lark will provide the ideal size portable building to meet your storage needs.

In situations where your demands are really big, we have the answer. The Lark Double Wide is one impressive structure. Built with pre-engineered trusses to give you total open span construction. This means you have nothing in the way of support or obstacles to interfere with your total storage needs. The Lark Double Wide is available in sizes 16' x 16' to 24' x 60'.*

If quality, durability, and product value are important to you, get the portable building that always delivers, the Lark Double Wide.

*maximum available size in Florida is 720 square feet
